|    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          | |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |  |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      | |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |          |           |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |   |    |    |    |    |    |    |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |          |             |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |
